Nha Marni,
We welcome Aunty Kellie back to the Occasional Care this week.
October 31st was World Teacher ‘s Day, we thank all of the teacher ‘s for the wonderful efforts they contribute to the learning of all of our students. The teachers play a valuable role in the lives of children and young people.
Attendance during Term 4 is still very important. We need the children to attend and continue their learning. We hope that with all of the illness going around we can get on top of this and keep our young ones healthy, so they can attend school.
We will be holding our Graduation Assembly on Tuesday 9th December, and class parties on the 10th December.

Nukkinya Ron Watson

GREAT ATTENDANCE; WELL DONE TO THE FOLLOWING STUDENTS

Week 2: 20/10 - 24/10: Teya & Ameerah
Week 3: 27/10 - 31/10: Cordell, Korreesha. Tyreese
Pre-School: Week 2: Jaimie, Traisana, Tramaine
Week 3: Jaimie, Traisana, Tramaine

Dates to Remember

7th November - Dance

18th & 19th November - Transition Full Day bring recess and lunch travel by School bus.
24, 25, 26th November - Swimming Lessons
1st, 2nd, 3rd December - Swimming Lessons
9th December - Graduation Assembly
10th December - Class Parties
12th December - Last Day of Term 4
Today we held Bushfire awareness training. This is to teach the children awareness of what to do in case of a Bushfire approaching while at school. We sound the air pressure horn and the children move to the Bushfire Refuge area in our Library. We also practiced our Fire evacuation drill. We teach the children what to do in case of a fire emergency in any of the buildings.

We have been making Dot paintings and these are proudly displayed in our classroom.

Term 4 is a 9 week term. We have to finish our learning and also fit in our Transition, and swimming lessons. What an exciting term. We are working on research projects. We chose our own topic and we are finding out information about it.

We are also learning about maps, we went for a walk around Point Pearce and then made a map of things we saw. In Science we are discussing things that are natural or constructed and so we have made a chart. We discovered some things can be a bit of both.

Maths lessons:- We have been learning about measuring in cm’s & mm’s. We have been measuring lots of things in the classroom.
Preschool Week 4

Weeks four has started off busy as a busy week!! On Monday we had 11 children come to join us!! It was great to see our tables full at lunch time.

Over the last week have been doing lots of art experiences!

Last week we did a cool experience with paint and glad wrap. We enjoyed squelching the paint underneath the glad wrap to make interesting pictures.

On Monday we taped a big whale to the ground outside. During the day we all helped to paint it using bubble wrap and tooth brushes.

Last week was also the start of transition for the preschool children who are starting school next year!! We would like to say well done to Jamie, Elijah, Travis, and Tramaine who have been doing a great job in the classroom with Miss Ali and Miss Kerry.
**Planning for Back to School 2015**

Children are at an increased risk of asthma attacks as they return to school or care after the holiday period. In the first few weeks after the summer holidays, admissions to hospital emergency departments peak for pre-school and primary school aged children.

It is important for parents, teachers, and carers to be prepared.

**Parents & Carers should:**

- Update your child’s Asthma Care Plan at the beginning of each school year, providing a copy to your child's pre-school and/or school
- Provide your child’s reliever medication and a spacer to the pre-school and/or school for use in an emergency
- Ensure medications and devices are clearly labelled with your child’s name, date of birth, and medication expiry date
- Make an appointment to talk with your child’s teacher or carer about asthma
- Learn about asthma by attending one of Asthma SA’s FREE Information Sessions.
